

DETACHERS AND DEACTIVATORS

OPTICAL TAG DETACHER

STOP LOCK DETACHER

DETACHER

HAND HELD DETACHER

Most EAS tags require a magnetic detacher to release the pin. We stock a range of Strong lock and Ultra strong lock releasers in surface mount and hand-held configurations. Hand held detachers for removing tags from big items such as bicycles, generators etc.

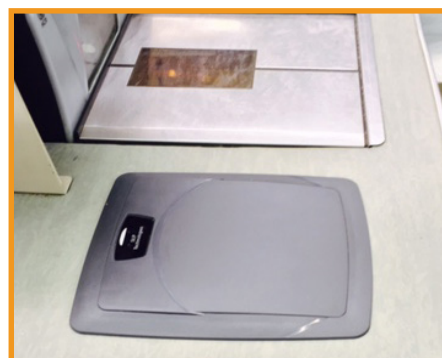

AM AND RF DEACTIVATORS

AM TOUCH DEACTIVATOR

RF DEACTIVATOR

AM PROXIMITY DEACTIVATOR
COUNTER SUNK INTO THE TILL POINT

We stock, install and maintain various deactivators to deactivate sticky label tags in both AM and RF. The proximity deactivators are ideal for supermarkets as the label will be deactivated when within 10 cm of the deactivator. This allows for quick deactivation at the till.
